

Greetings To Friends Upon the Lighted Way,

Day One of the 7-Day solar Full Moon Ritual of Group Approach to Divinity in Aquarius now begins (Jan 22). Full Moon periods are times set aside by all conscious aspirants and disciples walking the Lighted Way of the Soul to work at “causal” levels/planes of the Soul, individually and as a Group. During these times we make an added effort to remain inwardly focused even when outwardly active.

Aquarius is a *commanding presence of cleansing, healing Light* that brings the gift of “Rising”.

Aquarius is the “*light which ever shines within the dark, cleansing with its healing rays that which must be purified until the dark is gone*”.

During this month, Humanity – our nations, world cultures, societies, systems, movements and organizations – all created by the peoples of the Earth – cannot escape the cleansing Light of Aquarius, nor would we want to. As the promise of “*life more abundant*” streams through ‘cleared channels’, new measures of renewing “life” can and will manifest through all the forms we have created.

Every Full Moon period brings fresh *opportunity* to begin a new cycle. During the Aquarius / Leo cycle, this is especially true as energies of radical change and expansion are

released. The great ideals of Aquarius are “*Universality, Inclusion and Brotherhood*” – *inspired by the Universal Love of the Logos*.

In the greater Soul Psyche of Humanity, the Aquarian Christ – known as the Avatar of Love, Prince of Peace, Teacher alike of Angels and Human, and now as World Teacher of Humanity in the New Age – has been taking root, and in many circles *has taken root*. World events and numerous “signs” have caused a great Expectancy for He Who said to “Love one another”. For this One to “Appear” again and *be known*, certain signs must first manifest through the consciousness of Humanity and its activities before the emergence of the World Teacher is possible. Given the maelstrom and turbulence seen in the world today, all departments of human living are moving through a difficult cleansing passage. Stimulated by the energies of Aquarius, cleansing is underway and healing waters will follow. All are necessary for what is to come and the higher Ideals of Aquarius to manifest.

During this Full Moon period, we meet again in “group endeavor” for a simultaneous ritual observance – invoking beauty, magical potency, manifesting potential, and creating conditions for the possibility of

radical shifts in consciousness that cause new ways of *seeing* and *being* in the world. *More than this*, we join the Great Ones for outworking the Plan. As a group, we attune and surrender to the *greater rhythms of our planetary Life* whose rhythmic cycles revolve around a still greater Life and Sun – the Son of Divine Love. As we do, we become part of a great outpouring of life currents streaming through the Universe – to the Earth and every-one of us – each a conscious Atom of the One Life. As we become channels of reception for “energy from on High”, we collectively manifest ‘high to low’ as we receive *impression* for purposeful living and outworking the Plan of God. Thus we serve.

Master DK wrote, "**Individual approach must be merged into group approach, and the approach of groups will someday be superseded by the organized approach of humanity as a whole**".

Our method remains the same. With conscious intent, we make daily alignments breathing the Breath of Life of the reigning Constellation pouring through the Heart of the Sun whilst sounding the Sacred Word, OM; we make conscious contact with the Solar Angel and Angels governing this Light; we come into resonance and conscious rapport with a great reservoir of Light, Love and holy Power – the ‘Great Potency of the Inner Groups’ – Home to the Lord of Love and Companion Masters of Love-Wisdom; as a group we Contemplate and put into practice eternal Truths of the Ageless Wisdom. We purposefully summon the rising *Air of Aquarian Light, lifting Humanity* to higher spheres of daily living through our consciousness, opening and inviting renewing Waters of Life to flow more abundantly. As we live, so shall we give – is the ode and song of “Life more Abundant” streaming through our lives.

Full Moon Day is **January 25, 2024** – Thursday

5:54 PM GMT / 17:54 UTC / 9:54 AM PST / 12:54 PM EST

Directing our consciousness inward in group approach to Divinity, we are working at *causal* levels. We are also building upon an ancient foundation of religion that in Aquarius will become a scientific group approach to service and spiritual unfoldment. *Aligning with the great energies of the cosmos and the Great Ones Who embody these energies, we Rise with Them.*
