Dear Friends Upon the Lighted Way,

Greetings in the Light of Cancer. The 7-Day Solar Full Moon Ritual of Group Approach to Divinity begins this Saturday, July 13 in the northern hemisphere (or Sunday in the southern). We are reminded once again that Humanity's "great Approaches ... to the world of Reality" in the new age will come through a form of religion "built around the periods of the Full Moon" – and during major lunar and solar eclipses. EXT, 55

"In the Words given for this sign, the Word of the soul indicates the objective of the Cancer experience and the purpose for which incarnation has been taken: **"I build a lighted house and therein dwell"**. For the Disciple: *"The Whole is Seen as One."*

Every person must make their life *a lighted house, inside and out*, and Humanity must do the same. Humanity is destined to becoming a "lighted House" in the body of the Logos – because "Humanity, as a Whole, is an expression of divinity". In our group ritual approaches to Divinity, we are building both houses.

A simple definition of religion – is to yoke or bind back to source. Participating in unified group approaches to Divinity during Full Moon times when the energy is potently available serves to yoke, bind back or *return* to the source of Being – to the heart of the Universe and our place in it.

"...the outstanding characteristic of the human consciousness is the sense of the Innermost or the Real, a recognition of subjective destiny, and an innate knowledge of and reaching out to the Unknown God." EXT, 54/5

Purpose exists in substance, or matter. The Sign Cancer is "—one of the most ancient of the signs and one of the first to be recognized and established as an influencing factor by ancient humanity". When "the Spirit of God moved upon the face of the waters... God breathed into man's nostrils the breath of life and man became a living soul. In these words, you have established the relation which exists in the mind of God between spirit (the breath of life), the soul (consciousness), and man (the form)". EA, 313
