

DAY FIVE - FIRST DAY OF REGISTRATION AND DISTRIBUTION

Subtle expansions in consciousness change perception, allowing us to 'see' and experience new qualities and strengths of "being". Subtle at first, we make gains as we give attention to "the new mind", the "expanded heart" and a more lighted and soul-infused personality.

Therefore, "notice what you notice". Notice that which we had not been equipped to notice before. Allow what is noticed to be a victory in your awareness. Know that it will grow in power. Allow it to give you a new sense of freedom from the pulls and claims of a lesser identity.

Remember the ritual of preparation:

- ◊ Conscious "breaths of life" flowing through all the centers opening the door to the peaceful presence of the Soul field and the Soul.
- ◊ Sounding forth the Sacred Word, OM, to release atoms of lower vibration and drawing in higher ones.
- ◊ Consciously join the Soul Star Group within the Greater Group field.

- ◊ Attuning with the Angel of Scorpio through the 8th petal in the Heart in the Head Lotus, ask for Her support in the direction of your soul intentions.

REGISTERING CONTACT and REFLECTION

Engaging in a reflective review process reinforces what actually happened, and will often surface what is subtly *happening* now below the threshold of your awareness, thereby further strengthening the grip of the soul on the personality as a whole, or one of its vehicles.

Using the following images, re-enter the Full Moon field and call to mind what was registered. What happened of moment?

Has anything new arisen in the field of your awareness?

What victories and what triumphs have you experienced in these days of preparation and full moon contact that are contributing to making you a triumphant disciple? Be generous.

The registration of “distribution” and their triumphal effect on you will continue today and in the days to come. Be ready.

Close today's reflective Contemplation with the “**Affirmation (Mantram) of the Disciple**”

***The AFFIRMATION OF THE DISCIPLE**

"I am a point of light within a greater Light.

I am a strand of loving energy within the stream of love divine.

I am a point of sacrificial Fire, focused within the fiery Will of God.

And thus I stand.

I am a way by which men may achieve.

I am a source of strength, enabling them to stand.

I am a beam of light, shining upon their way.

And thus I stand.

And standing thus revolve

And tread this way the ways of men,

And know the ways of God.

And thus I stand."

Sound the Sacred Word standing in the radiant *Light of a NEW Day*

* (*The Affirmation of the Disciple are "words and phrases ... so ancient that they antedate both Sanskrit and Senza. But the meaning is clear and that is the point of importance."*)
